Bibliographic Organizer

The Bibliographic Organizer is a tool to help you save information that will help you locate and access the sources you select at a later date. The information is saved from the Library of Congress Bibliographic Information Page related to each primary source you choose. An example entry and directions are included below.

Title of Lesson or Topic:

Developed by:

Date:

Thumbnail Image	Document Title, Author/Creator, Date	Collection or Repository, Reproduction # or Digital ID, Library of Congress URL
	View of Pittsburgh & Allegheny / Otto Krebs lith., Pittsburgh. **Creator:** Krebs, Otto, lithographer. **Created/ Published:** c1874.	LC-USZC4-3167 http://hdl.loc.gov/loc.gmd/g3824p.pm008322
Image: Use your keyboard to **copy (Cltr + C)** the small thumbnail image. **Paste (Cltr + V)** into the first column. **OR** from the menu bar, select "**Save the image**" to your desktop and then **"Insert Image"** to paste. Note: If no thumbnail image is available, simply note the source format. (e.g. "Audio Recording")	Title, Author, Date: • **Copy and paste** the exact **Title** of your primary source, • **Author/Creator** of the item, • and the **Publication Date**.	Digital ID and URL: **Copy and paste** the **Digital ID.** Repeat to save the **persistent URL.** Note: The persistent URL may be listed at the bottom of the information page. If not, use the URL shown in the address bar at the top of your screen.
