

Entrepreneurial Leadership Minor Classes

<p>BUS 155 : Creativity and Innovation</p>	<p>T/TH 9:30 - 10:45 & 1:00 - 2:15</p>	<p>Creativity and Innovation are sought after skills by today's employers. In this class you will learn and apply techniques to increase your creativity and develop innovative solutions.</p>
<p>ART 295 02 ST: Digital Prototyping</p>	<p>T/Th 9:30-10:45</p>	<p>This course introduces students to a range of digital prototyping techniques for generating proof-of-concept solutions for design projects. Students will design and rapidly prototype interactive solutions, following up with critique and reflection on the success and/or failure of objects created. Students will gain basic knowledge of using and setting up objects to print on 3D printers.</p>
<p>ENT 225: Introduction to Entrepreneurial Leadership</p>	<p>T/TH 2:30 -3:45</p>	<p>In this course you will develop a mindset and build a toolkit that will allow you to create and evaluate opportunities, marshal resources and select business models for a business concept.</p>
<p>ENT 325: New Venture Creation</p>	<p>T/TH 1:00 - 2:15</p>	<p>In this course you will go through the business startup process using an idea of your own. At the conclusion of the semester you will be ready to make the startup decision on your idea.</p>
<p>ENT 406: Topics In Entrepreneurial Leadership-Plastics to Progress</p>	<p>M/W 3:00-4:15</p>	<p>Utilizing the Design Thinking Process, this course will teach you how to solve social problems and execute feasible solutions. You will gain real world problem-solving skills by learning how to move an idea from concept to impact. This class will be team taught with professors from Art, Business, Communication, Humanities and Sciences.</p>
